Section	Details
Project Name	Login Functionality Testing
Project Version	v1.0
Prepared By	Habiba (QA Tester)
Date	21/12/2025
Scope	Testing login functionality including valid login, invalid login, security checks, input validations, session management, logout functionality.
Objectives	Ensure login works correctly for valid credentials and handles invalid inputs properly. Ensure security and session behavior are correct.
Test Approach	Manual testing using functional and negative test scenarios. Test Cases will cover: 1) Valid/Invalid credentials 2) Input limits 3) Case sensitivity 4) Security testing 5) Session management.
Test Types	Functional Testing, Negative Testing, Security Testing, Boundary Testing, Usability Testing
Resources	QA Team: Team names Tools: Browser, Excel
Test Environment	OS: Windows / Mac Browser: Chrome / Firefox / Edge Network: LAN/Wi-Fi
Entry Criteria	Application deployed, login page accessible, test data available
Exit Criteria	All planned test cases executed, critical defects fixed, QA sign-off
Risks / Assumptions	Limited time for testing, some browser/device combinations may not be available
Deliverables	Test Plan document, Test Cases document,Bug Report, Test Summary/Report
